

For the First Time in Belgium!

MASTERCLASS WITH IVANA CHUBBUCK

1 & 2 February 2025, Antwerp (BE)

Acting Coach Romy Irene and actor/performer Matteo Franco are thrilled to host an intensive 2-day Masterclass with the world-renowned acting coach Ivana Chubbuck on 1 & 2 February 2025, in Antwerp (Belgium).

You can take part as a **Participant** or an **Active Auditor**.

Apply or register now, spots are limited!

Why This Workshop?

With over 40 years of experience, [Ivana Chubbuck](#) has been an acting coach to numerous award winning renowned stars including *Brad Pitt, Jared Leto, Charlize Theron, Ryan Gosling, Sylvester Stallone, Travis Fimmel, Halle Berry, James Franco* and *Jake Gyllenhaal*. She also worked closely with directors and screenwriters helping them dive deeper into human psyche and create characters that are raw and authentic.

Joining her 2-day intensive and interactive Masterclass, either as a Participant or an Active Auditor, is a truly unique opportunity to elevate your art. Immerse yourself in her cutting-edge technique that has proven to dramatically change careers all over the world.

What Will You Learn?

- How to use the 12-step Chubbuck Technique through watching, listening and participating
- How to do transformative exercises, in which everyone in the audience will actively participate in
- How to create palpable chemistry with anyone via the *Chemistry Exercise*
- Help you understand how to play an evil character
- How to take the victim out of being a victim if you are playing the one being killed
- How to truly feel high or drunk with exercises that give you the authentic feeling of being on those substances
- How to organically play fear
- How to do an *Emotional Diary exercise* which quickly gets you to knowing what your deepest triggering emotions are

What is the Chubbuck Technique?

In her best-selling book *The Power of the Actor*, Ivana Chubbuck reveals her cutting-edge technique which has helped launch some of the most successful acting careers in Hollywood. The Chubbuck Technique is a 12-step process based on psychology and behavioral science that guides you to dynamic and effective results. Ivana has a profound insight of the human psyche and by using her technique, you learn to replicate the character from your own personal needs and life experiences. This approach enables actors to realize and embody a role so that the character becomes you – and you become the character.

What Do Renowned Actors Say About Ivana?

I finally went to a class in Los Angeles with this wonderful teacher, Ivana Chubbuck. Ivana taught me how to take my emotions and everything that has happened in my life and use it to make me an effective actor. The stakes have to be high – so it was really an interesting place for me to stand on my feet and fall on my face many times.

CHARLIZE THERON

t

Ivana's astute knowledge of the human condition, coupled with her ability to translate that insight to her students, is remarkable. Her philosophy transcends what we once knew about art and forces actors, through their own catharsis, to discover authentic ways of bringing the complexity of life to the screen and stage. Under Ivana's tutelage, the course of my career and the depth of my work have changed dramatically.

HALLE BERRY

Ivana has taught me that a character's intentions are best revealed within behavior, that behavior can contain the layers and richness of their pain, desperation, and need. Because words can lie, behavior tells the truth.

TRAVIS FIMMEL

The guesswork is gone. Finally, a book 'The Power of the Actor' that provides the nuts and bolts to acting, that shows me how to always be present, how to always have something going on behind my eyes, and ultimately, that provides a concrete path for me to really discover and live a role.

JESSICA BIEL

Information for Participants

Preparation

To join [Ivana Chubbuck's Masterclass](#), you must apply, and Ivana will personally select the participants. Applicants should be experienced actors who are familiar with or want to familiarize themselves with the Chubbuck Technique and Ivana's book, *The Power of the Actor*. Those chosen will work in pairs on a scene selected by Ivana, prepared 2 to 3 weeks before the masterclass, according to the 12-step technique outlined in her book. Participants must rehearse with their scene partners for 6 to 8 hours before the Masterclass, and an additional 3 to 4 hours after the first day's session on Saturday. This promises to be a transformative experience!

During the Workshop

The first workshop day starts with a brief introduction to the Chubbuck Technique. Besides working on the scenes, there will be interactive exercises to help you connect with your emotional core. You will also learn how to create chemistry through the *Chemistry exercise*. On the first day, you will perform your scene as you have prepared it. Then, Ivana will work with you and help you personalize your character. You will take notes for your scene as well as from the scenes you observe. Based on your notes, you will adjust your acting choices and rehearse on Saturday evening. You need to keep the evening free for rehearsals and have no other plans. Sunday, the focus will be on performance and different versions of the scenes. There is also time for questions and answers.

Information for Active Auditors

This interactive workshop will clarify how to use the 12-step Chubbuck Technique. By watching, listening, and participating you will gain practical tools to apply it effectively in your work as an actor, director, or screenwriter.

It includes several transformative and interactive exercises in which everyone (participants and auditors) will actively participate. For example, the audience will engage in exercises designed to help actors tap into their emotional resources, enabling them to access true emotions in a simple, and effective way. You'll also learn to create chemistry through the *Chemistry Exercise*. Each scene in the workshop has been carefully selected to confront actors with key aspects needed to deliver great performances. The observers will face the same challenges, pondering questions like "*What would I use?*" and "*What choice would I make here?*".

There is also time for questions and answers.
